

## AIMS

The SOLA Laser Academy provides a certified post-graduate educational program for dentists and oral/maxillofacial surgeons. Laser users will be trained in a three-step Module course in all fields of laser dentistry. The aim is to provide a consolidated education based on the latest research findings and trends in this innovative field of dentistry. The curriculum of the SOLA Laser Academy was created in co-operation with numerous European Universities, experienced practitioners and industry. International speakers will give lectures on their special field. Theoretical education is combined with hands-on training based on clinical experience. The "Mastership Certificate" is awarded after successful completion of all three modules. Please note that graduates of the SOLA Laser Academy are not automatically eligible to work as dentists in Austria.

### Head of SOLA Laser Academy

Univ.-Prof. Andreas Moritz, MD, DMD
